# Project Phasing – NHDOT Conway 40638

Eastern Main Street Project; Intersection of Rt. 16/153 & Rt. 16/113

- NHDOT has provided funding for this project and it is referred to as a Local Public Agency (LPA) project, which is managed by the Town of Conway. Mr. Badera, Town Engineer, is the person in responsible charge of this LPA project for the Town of Conway.

- All project related information will be available at the Town Engineer’s webpage, not at the NHDOT website. All project related, questions, comments, or complaints shall be emailed directly to the Town of Conway at: [MainSt@conwaynh.org](mailto:MainSt@conwaynh.org).

- Project updates will be provided on the Town Engineer’s webpage every two weeks. These updates will also be presented at regularly scheduled Selectboard meetings.

# Traffic Control Plan – NHDOT Conway 40638

Eastern Main Street Project; Intersection of Rt. 16/153 & Rt. 16/113

- The Traffic Control Plan (TCP) for the project provides two-way traffic throughout the entire duration of the project. Certain areas of the project will be widened with temporary pavement to maintain the current flow of traffic.
- The TCP does not re-route or divert existing traffic patterns onto adjacent streets in the vicinity of the project during construction.
- Advanced warning devices including message boards and permanent signage will make motorists aware of the construction activities. Flaggers will be used to direct motorists through the project site.
