RE: Memo Regarding Updates to the Enforcement of the 2018 International Energy Conservation Code (IECC)

Dear Registered Contractor,

Please be aware that all building permit applications received on or after April 1, 2025 will be required to demonstrate compliance with all applicable aspects of the 2018 IECC, including the following:

- Mechanical ventilation is required for new residences per M1505 of the 2021 International Residential Code as Adopted by the State of New Hampshire.
- Blower door tests with a maximum of 5 ACH are required for new dwellings per N1102.4.1.2 of the 2018 International Energy Conservation Code as adopted by the State of New Hampshire.
- Duct testing is required per N1103.3.3 of the 2018 International Energy Conservation Code as adopted by the State of New Hampshire.

Please feel free to contact the Building Department if you have any questions

Jeremy Gibbs
Building Inspector
